Hello! My name is Rick. I study in a big school in New York. In my school, there are three classrooms, one computer room, a gym, a library and a science lab. There is one toilet for the girls, one for the boys and one for the teachers. There is a big canteen. I eat in the canteen; my favorite food are cereals and yogurt.

I go to classes at 8:30. On Monday, I have history, science, music and math. On Tuesday, I have English, P. E., Geography, and art. On Wednesday, I have Math, Music, history and science. On Thursday, I have geography, math, Physical Education and English.

My favorite day is Friday because I have Technology class. I go to the computer room, and use the computer to create power points presentations. We watch videos too. The teacher lets me play computer games when I finish my activities.
